— Single Vote for Single End User (use any method - IP/Cookie)

— only Admins can Add & Delete Candidates. Implement a system for that. Either asking an admin code while doing form requests which is validated in the backend or any other feasible way.

Note: An End User can only vote once. A Candidate can only change his details & he can also vote for himself/others only once. Admin can add/delete candidates & can also vote only once

[Extra] (Advanced)

— Deploy your Fullstack App on any Cloud platform or service. Eg. Heroku or AWS Elastic Beanstalk or Microsoft Azure or any free alternative or any other way. (This deployment link must be active for at least 2 weeks from Submission Date.)

— Provide the Deployment URL along with Source Code in a .txt file

— IMPORTANT: Archive source, screenshots and documentation in ZIP file and upload it.
